

Contents

	Foreword	(iii)
	Preface	(v)
General Topics in Repair and Rehabilitation		
1	Visible and invisible problems of concrete repair A.M. Vaysburd and P.H. Emmons	1
2	Repair and rehabilitation of structures - Some random thoughts L. Czarniecki, A.M. Vaysburd, N. P. Mailvaganam, P.H. Emmons and J. E. McDonald	9
3	Minimising cracking - The key to durable concrete repairs A.M. Vaysburd, P.H. Emmons, and G.M. Sabnis	17
4	Procedural sequence in the repair of buildings N.P. Mailvaganam and T. Alexander	23
5	Interfacial bond and surface preparation in concrete repair A.M. Vaysburd, G.M. Sabnis, P.H. Emmons and J.E. McDonald	29
6	A systematic approach to extending service life of parking structures S. Bhuyan, G.M. Sabnis and K. Nam Shiu	36
7	ACI committee 364 on rehabilitation: Past, present and future D. Kaminetsky, G.M. Sabnis and A.C. Shroff	42
8	Seismic strengthening of existing reinforced concrete buildings S.K. Jain	45
9	Fiber reinforced polymer (FRP) tubes for pile/column applications S.L. Iyer	52
10	Structural retrofit and strengthening using advanced composite materials S. Savardekar, R. Jamaji and Y. Chhabra	57
11	Uncertainty in concrete repair and restoration (Point of View) N.P. Mailvaganam	61
Materials, Techniques and Specifications		
1	Durability of polymer-based materials in concrete structures N.P. Mailvaganam	65
2	Application of vacuum technology to restore concrete structures Jerry L. Boyd, G.M. Sabnis and Josua A. Boyd	73
3	Modern trends in repair mortars A. Gooch, M.H. Decter and A. Deykin	79
4	Using cathodic protection technique in China Dajun, Ding and Dinghai, Hong	83
5	Rehabilitation of structures - criteria for materials selection S. Surlaker	87
6	Epoxy resins in civil engineering and construction B. Singh, M. Gupta and Dr L.K. Aggarwal	94
7	Effects of workmanship factors on traffic deck waterproofing coating systems N.P. Mailvaganam and P.G. Collins	103
8	Planning provisions for preventive maintenance and preparation for effective repairs R.N. Raikar	110
9	Epoxy-phenolic IPN coating for concrete and reinforcing steel L.K. Aggarwal, K.K. Asthana and R. Lakhani	114
10	Asphalt road repairs with a rapid repair material S.A. Ranade and A.J. Tongaonkar	119

11	Polymer-modified concrete/mortars for repair and rehabilitation works S.K. Manjrekar	122
12	Role of construction chemicals in ensuring durability of concrete structures R. Shridhar and Y.P. Kapoor	126
13	Surface preparation for application of patch repairs, sealers and coatings – Indian approach B.V. Bhedasgaonkar	131
14	Concrete repair specifications - revisited L. Haboubi and M.N. Ramesh	135
15	An expert system for diagnosing causes and repair of defects in RC structures S. Rajeev and J. Rajesh	140

Case Studies

1	Rehabilitation of transit structures: Old problems and innovative solutions M. Nagaraja and G.M. Sabnis	149
2	Cracking and repair of environmental concrete structures D. Kaminetsky	156
3	Rehabilitation of balanced cantilever bridges P.Y. Manjure	159
4	Role of construction chemicals in effective restoration of structure - Case studies M.S. Venkatesh and P.S. Reddy	165
5	Repairs of beams and slab with excessive deflection B.V. Bhedasgaonkar and M.K. Wadekar,	168
6	Case study of the repair of a major bridge and some thoughts on repair materials S.K. Manjrekar	172
7	Repair of Hirakud dam: A case study S.N. Ghosh and B. Das	178
8	Repair of RC structures in cement plants - A case study B.V. Bhedasgaonkar	181
9	Strengthening measures for a 80-m high co-boiler RC chimney stack S.C. Chakrabarti, S.Kr. Agrawal, M. P. Jaisingh and K.N. Sharma	184
10	Strengthening of a massive concrete foundation block of a diesel generating set V.S. Parameswaran, N.P. Rajamane, M. Neelamegam and K. Balasubramanian	190
11	Strengthening chemically-deteriorated concrete structures R.G. Limaye, M.K. Kamat and S. Hotta	193
12	Restoring a 100-year old building in Mumbai C.R. Raikar	198
13	Repairs to joints B.V. Bhedasgaonkar	203
14	Rehabilitation of an old building: Case study R.K. Dahisaria, and R. Jagadish	207
15	Rehabilitation of structurally damaged and corrosion-affected structures using polymer systems B.V. Bhedasgaonkar and M.K. Kamat	210
16	Protective coating for the second Thane Creek bridge superstructure S.K. Bhugra	213
17	Restoration of hammer foundations in forging industry — A case study G.D. Shanbag, P.G Gokhale and B.V. Bhedasgaonkar	216
18	Use of polymer and inorganic chemical grouts in the rehabilitation of structures S.K. Manjrekar	219
