

REXCON's HD-12 Innovative mobile concrete batching plant

RexCon produces a complete line of performance-proven concrete batch plants and controls, paving and crushing equipment, truck mixer parts and related equipment. The company's portable heavy-duty transit mixer transit mix batch plant, HD-12, boasts a 21.5 m³ (760 ft³) capacity aggregate weigh bin enabling convenient 9.2 m³ (12 yd³) batching from two compartments. Design for maximum durability and long service life, the aggregate bin features 0.95 cm (3/8 inch) thick steel and a flat bottom design. optional aggregate bins are available with 100, 150 and 200-tonne capacities.

The aggregate bin comes standard with 66-tonne capacity and four compartments. Options include sizes to 200 tonne and various bin configurations with up to eight compartments.

Rexcon's HD-12 innovative mobile concrete plants

The HD-12's cement silo features a 530 bbl single compartment with options up to 1,050 barrel and split double wall available as options. All silos feature low pressure aeration systems, keystone rotary gates, screw operated slide service gates, interior piping for filling, electric and air supply to the top of the silo, and three inch interior line to drain water from the top of the silo.
