

LETTERS TO THE EDITOR

Kudos to ICJ

This is just to place on record my appreciation to the role played by *The Indian Concrete Journal* in our engineering field — especially civil engineering with you at the helm. Each issue is a store-house of information. I admire your batting all round the wicket with different strokes.

The surest way to increase the confidence level of our engineers is to expose them to flood gate of information of various projects in hand at various nooks and corners of our large country. *ICJ* is presenting it in compact form.

I may add that it was my dream that such a task should be undertaken by the largest body of engineers in our country. The proposal was greeted with applause but never saw the light of the day.

I am happy that *ICJ* is filling this gap between alert engineers and projects in our country.

Please continue the good work.

Subscriber for 55 years!

Soon after passing out in 1947-48 I had started subscribing to *ICJ*. I have thus been a subscriber probably for over 55 years!

I have retired from my practice some years ago and you would appreciate that I would not be in a position to renew the membership.

I wish you all the best.

Rebuilding old lost links

I am enclosing herewith a copy of your letter dated September 16, 1957, which I

found during my recent visit to Karachi enrolling me for subscription for the period from October 1957 to September 1958.

I wish to bring to your notice that I have been out of Pakistan for a major period of my life as I have been working in UAE for the last 36 years. I was involved in the project execution of the Sharjah International Airport in 1975-1978 worth about 300 million UAE Dirhams.

Today, it is with great pleasure that I am writing this letter to you since I wish to renew my links and again subscribe to *ICJ*. Hence, please advise me on the same and dispatch a list of your publications.

I also pray that our countries — India and Pakistan — should be friends.
